Email address _____

*****PLEASE INCLUDE A COPY OF DATED BILL OF SALE*****

Is Aircraft Flyable? Yes No (If not, you may request an unflyable aircraft waiver of registration)

Unlike your motor vehicles or boat, New Hampshire statutes require you to register an aircraft even if it is not flown. See RSA ch. 422. You must notify the Bureau of Aeronautics if your aircraft is unflyable and you wish to request a waiver of registration and Aircraft Operating Fee, pursuant to RSA 422:22, VI. Valid reasons for requesting a waiver include: a major component is missing, damaged, or removed for repair; aircraft is undergoing accident or incident repairs; or aircraft is undergoing a complete rebuild or modification. There is no fee to request a waiver of registration for an aircraft in unflyable condition, but you must apply for, and be approved for, the Unflyable Aircraft Registration Waiver.

Please complete and return this form to the NHDOT Bureau of Aeronautics at the address listed below or by email to the Registration Coordinator at Bureau64@dot.nh.gov. Please do not submit a payment at this time. Upon receipt of this form by the Bureau of Aeronautics, your registration fees will be computed and you will be sent an invoice for the registration fees.
